"To be honest, in the time we had, I thought it was a fantastic 2 days, which gave me the chance to speak to a variety of people from all backgrounds and have suffered from a variety of issues in their past. I certainly overcome my issue with heights and being open with people about my issues."

Who are we?

StrongMen is a registered charity providing support to men who have suffered bereavement.

What is our mission?

To understand, support and improve the physical, mental health and vitality of men suffering from bereavement.

How do we do it?

The great outdoors provides the ultimate platform to engage with each other. By reconnecting with the outdoors and participating in a variety of physical activities aimed to create a sense of achievement and purpose. Just as importantly we create a safe, secure environment providing the opportunity to relax and talk with others suffering similar experiences able to empathise with each other.

Meet the team

Dan Cross

"I enjoyed the full 2 days and all activities included. It has been the best 2 days without my wife and daughter for years. I was sad to see the end of the 2 days, but I was buzzing and beaming with a big smile, when I returned home to my loved ones."

Mental health issues within men is a difficult subject to tackle for many reasons.

Grief is one of the biggest causes of conditions such as depression, anxiety, stress and in extreme cases, PTSD.

It is with personal experience in these issues that the team behind StrongMen believe we can create a unique service that encourages and promotes men speaking out about their problems.

We will achieve this in many ways, with the primary focus being on weekend breaks for men based around physical activity's along with talks and discussions from experts on the importance of looking after your body through areas such as nutrition, leisure and exercise to aid recovery alongside speaking to people about your thoughts and problems.
